RANGE OF PRODUCTS

BAXOPLAST

HIGH QUALITY PLASTIC CASTING MIX WITH SUPERIOR PERFORMANCE

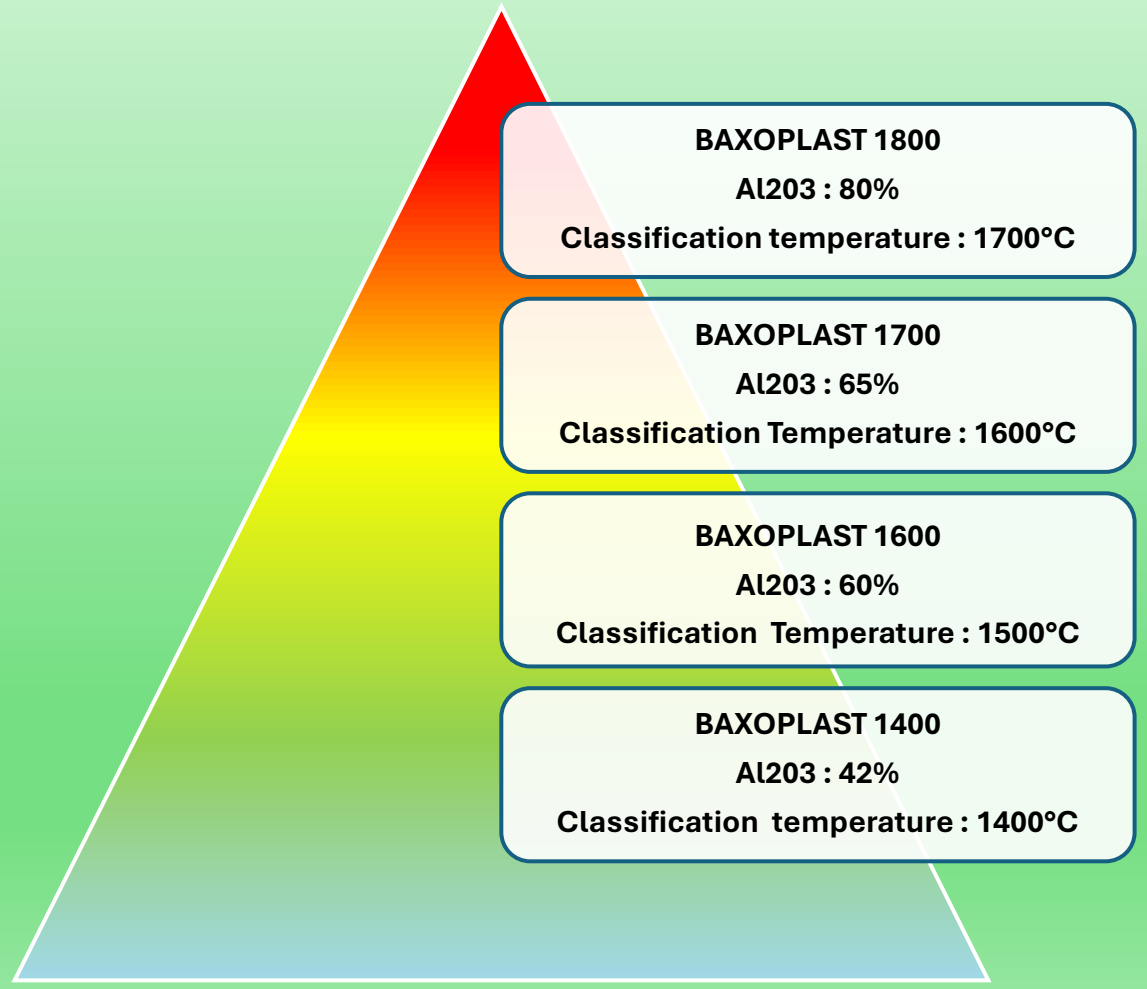

BAXOPLAST RANGE COUPLES PERFORMANCE OF MOULDABLE AND EASY APPLICATION

linco baxo group of companies

The World of LINCO BAXO

Design, Development, Manufacture and Supply
of LINCO BAXO, KERO, MAREF and SIRMA
Refractory Monolithics, Bricks, Blocks and Shapes

PRODUCTS DESCRIPTION

BAXOPLAST 1800

Al203 : 80%

Classification temperature : 1700°C

BAXOPLAST 1700

Al203 : 65%

Classification Temperature : 1600°C

BAXOPLAST 1600

Al203 : 60%

Classification Temperature : 1500°C

BAXOPLAST 1400

Al203 : 42%

Classification temperature : 1400°C

PRODUCT DESCRIPTION

FURNACE LINING

BRANDNAME	DESCRIPTION	Al_2O_3
BAXOPLAST 1400 / 1600 BAXOPLAST 1700 / 1800	Plastic gunning mix	40 / 60 70 / 80
ISOM 23A/26	Insulating bricks	38 / 58
SILTHERM 1000/1100	Calcium silicate boards	
PARGAS / BASALAN	HT mineral wool boards	
Anchor bricks Hooks	Ceramic anchors Stainless steel anchors	A300 / Maref ARP A313+A324

PRODUCT DESCRIPTION

available in various thicknesses, sizes, and densities to meet the specific needs of your project

Aggregate chemistry and grain sizing high purity binder systems Installed by cast, gun or roughcasting .It incorporates an intermediate-purity binder and closely sized premium aggregates

These plastic casting mixes are designed for use in high temperature applications with a recommended water content, they can be easily mixed and formed to create custom shapes for your unique requirements

Plastic casting mixes for service up to 1800°C Suitable for applications where thermal shock and moderate impact resistance is important

They exhibit excellent volume stability. Many furnace operators select BAXOPOLAST for all purpose service where operating temperatures are between 1300°C and 1800°C.

BAXOPLAST RANGE SPECIFICATIONS

Specifications	BAXOPLAST 1400	BAXOPLAST 1600	BAXOPLAST 1700	BAXOPLAST 1800
Recommended use limit (° C)	1400	1600	1700	1700
Recommeded Water range % by weight	13 -15			
Method of installation (casting / gunning)	Casting / gunning			
Shelf life	12 Months			
Physisca l Properties				
Dried at 105°C	2060	2220	2260	2590
Fired at 815°C	1960	2150	2190	2570
Cold crushing strength (MPA)				
Dried at 105°C	8	10	15	20
Fired at 815°C	15	20	20	25
Permanent linear change (%)				
Fired at 815°C	0,25	0,25	0,28	0,1
Chemical Analysis (%)				
Al203	42	58	63	80
Sio2	44	37	32	5
Fe203	3	1	0,9	1,5
Cao	9	4	4	4
Thermal Conductivity (w/mk)				
200°C	0,71	0,9	1	1
400°C	0,64	0,91	0,98	0,98
600°C	0,65	0,92	0,98	0,98
800°C	0,75	0,94	0,98	0,98
1000°C	0,78	1	1,1	1,1

Design, Development, Manufacture and Supply of LINCO BAXO, KERO, MAREF and SIRMA Refractory Monolithics, Bricks, Blocks and Shapes

APPLICATIONS

- Reheating furnace roof & sidewalls :

  PTF, WBF, RHF, BHF
- Linings around water-cool boiler beams
- Boiler ash hoppers
